

WE'RE MOVING!

We are excited to announce that the growth of Ampteks, Inc. over the past few years has us expanding beyond the capacity of our current facility.

Ampteks, Inc., Northern California's premier facility dedicated to the service, repair, and testing of low and medium voltage circuit breakers will be moving to a new facility in January 2013.

The new facility is located at 265 Rickenbacker Circle, Livermore, CA 94551. It is directly off HWY84 and HWY580 and adjacent to the Livermore Airport.

Over the last 6 months the new facility situated on 20ksqft has been built out to our stringent specifications and offers 3000sqft of class A office space and over 6000sqft of work area. We now have the capacity of 200kA current and 100kV output and will support our continued growth.
